

## TIER 3 PUBLIC NOTICE

### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

#### Monitoring Requirements Not Met for VALLE ESCONDIDO

Our water system violated drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During September, 2025 we did not monitor or test for **Stage 2 Disinfection Byproducts** and therefore cannot be sure of the quality of our drinking water during that time.

#### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year; how often we are supposed to sample and how many samples we are supposed to take; how many samples we took; when samples should have been taken; and the date on which follow-up samples were (or will be) taken.

<b>Contaminant</b>	<b>Required sampling frequency</b>	<b>Number of samples taken</b>	<b>When samples should have been taken</b>	<b>When samples were taken</b>
<b>Stage 2 Disinfection Byproducts (TTHM &amp; HAA5)</b>	1 sample every three years	1	September, 2025	August, 2025

#### What is being done?

The sample will be collected next year in the correct month of September.

For more information, please contact Will Sipes at 520.431.3284.

Please share this information with other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
